Haunted

The Frights

Heard what you said about me
Your voice was always shining
Say you've never loved me
But you would always love meDid what you always wanted
My soul forever haunted
Say you never kiss me
But you could never kiss meI'll try my best to say, that it's all a waste
It's my mistake
And when the lights go out
I will close my mouth and fall asleep.....
..... whisky diamonds
..... Laying on your boyfriend
Lonely, Lonely weekendsGave up on your equation
Sweet dreams and masturbation
Tell another story
Something is always boringI'll try my best to say, that it's all a waste
It's my mistake
And when the lights go out
I will close my mouth and fall asleepI'll try my best to say, that it's all a waste
It's my mistake
And when the lights go out
I will close my mouth and fall asleep
