

Going Back

RollerBlue

I'm walking in the shallows, trying to kill the day
Coming from the shadows, back into the fray
I'm seeing all the colours, reinvent the past
And feeling all the summers, don't keeping the best to last

Chorus

I'm goin back, I'm goin back, to find the truth, that's always been
I'm taking time, the time is now I'm rediscovering I'm walking in the shallows, trying to kill the day
Coming from the shadows, back into the fray
I'm finding lots of reasons not to call you back
And revelling in the feeling
Of having the last laugh
Chorus
