

Stronger

Stef Lang

Verse:

I've been through the darkest days
I've been through the worst of all
Living in a smokey haze
Staring at the same four walls
Just wanna fade away
Just wanna fade away

And I've been through the roughest seas
Drowning in the tidal waves
Like there was nothing left in me
Like it would never go away
Breathe through another day

Just gotta breathe through another day

Chorus
My soul is stronger than it's ever been before

Though I've been through a mess yes I've been through it all before

I'm a fighter I survived the perfect storm

Stressing less and I dare to express that I'm stronger

Yeah I'm stronger

Verse:

When everything was crumbling down Couldn't seem to shake the pain

When I just needed a way out

Couldn't seem to break the chains

Just let it fade away

Just let it fade away

Chorus:

My soul is stronger than it's ever been before

Though I've been through a mess yes I've been through it all before

I'm a fighter I survived the perfect storm

Stressing less and I dare to express that I'm stronger

Bridge:

There's no breaking me, No I won't go down

Down now that easy

There's no breaking me, No I won't go down

Down now that easy

My soul is stronger than it's ever been before

Though I've been through a mess yes I've been through it all before

I'm a fighter I survived the perfect storm

Stressing less and I dare to express that I'm stronger
