Forget To Breathe (feat. Natasha Anderson)

[Joe Bermudez](#)

I'm not myself again today
It happens every time you're near me
All these words get in the way
I forget to
I forget to
I wonder if you feel the same
Do I leave you lost and reeling
All my words get rearranged
And I forget to
I forget toBreathe
I forget to breathe
Every time you touch me
Where you know I'm lonely
I forget to
I forget to breathe
I forget to breathe
I love the way you touch me
How you take your time
Our bodies intertwined
I forget to breatheI'm not a girl who hesitates
But something happens when you're near me
I'm not a girl who can't think straight
But I forget to
I forget to
I think it's time we improvise
No asking questions no more maybe's
No looking back no compromise
And I forget to
I forget toBreathe
I forget to breathe
Every time you touch me
Where you know I'm lonely
I forget to
I forget to breathe
I forget to breathe
I love the way you touch me
How you take your time
Our bodies intertwined
I forget to breathe
