

# Furthest from the Truth

## Immolation

Son of highest  
You are falling  
You are falling  
Not floating from out of the sky  
You deceive us  
You betray us  
You will not lift our hearts to eternity  
But leave a hole with despair  
We waited and waited  
Our crosses born  
And still you did not come  
And how does it feel  
As life passes by  
We will not know until we pass  
that you are a lie  
Will we receive the mark  
Of those who did not believe  
The temptations that are burning us alive  
But you tell us that there's sin in what we think  
For forgiveness we'll believe your every word  
but will you show us what our souls cry out to see  
No...No...No...  
Son of man, are you the son of God  
No...No...No...  
did you die to cleanse this world of sin  
No...No...No...  
Will you return from the dead to  
save the world again  
No...No...No...  
Has the blood you shed turned the darkness into light...No  
Son of highest You are falling  
You are falling  
not floating from out of the sky  
We waited and waited  
Our crosses born  
And still you did not come
