# P.j. Soles

## Local H

I think of P.J. Soles
And wonder where you are
I'll never see you anymore
Where do you think they go?
All the fallen stars
Heaven doesn't know you like I do
See you bleed through
The gauzy haze I sink into
I think of you like P.J. Soles
I was your biggest fan
You seemed to understand
They'll never see you like I do
I guess it's like they said
That it was all just built up in my head
But you're still so real to me
I'm fine this time
To me it makes no never mind
But you know I keep you close
Yearbook it took
Just one thousand tear stained looks
I think of you like P.J. Soles
And if I do think of you
It's only in the darkest place inside of me
You should know
I think of you like P.J. Soles, P.J. Soles
I'm fine this time
To me it makes no never mind
Yearbook it took
Just one thousand tear stained looks
See you bleed through
The gauzy haze I sink into
Phone call, fuck all
You're just one part of my free fall
This part of me will never close
And if I do think of you
It's only in the darkest place inside of me
You should know
I think of you like P.J. Soles
P.J. Soles, P.J. Soles

P.J. Soles, P.J. Soles
