

# Falling

## Why Don't We

Girls like you, they just don't understand  
Didn't mean harm but you killed a man  
Loving you never was in the plan  
Stuck in your ways, I sink in your sand  
I swear I saw you comin'  
I'ma hope for one, yeah  
You don't wanna be rushed  
You don't wanna be touched  
It's a shame girls like you don't know how to love  
Try to give you my all, but it's not enough  
Can't you see that I'm falling  
Can't you see that I'm falling, falling for you  
Show me where your heart is  
Can't you see that I'm falling, falling for you  
Can't you see that I'm on this, and I want this  
Can't believe that I'm falling, like this for you  
Can't you see that I'm falling  
I'm falling, falling for you  
Ooh, ooh, ooh (falling, falling)  
Ooh, ooh, ooh (falling, falling)  
And it's crazy the things that we'll do for us  
But the stars don't align, they're not here for us  
It's a shame girls like you don't know how to trust  
Wish my feelings would turn 'round from love to lust  
I swear I saw you comin'  
I'ma fool for one, yeah  
You don't wanna be rushed  
You don't wanna be touched  
It's a shame girls like you don't know how to love  
Try to give you my all but it's not enough  
Can't you see that I'm falling  
Can't you see that I'm falling, falling for you  
Show me where your heart is  
Can't you see that I'm falling, falling for you  
Can't you see that I'm on this, and I want this  
Can't believe that I'm falling, like this, for you  
Can't you see that I'm falling  
I'm falling, falling for you  
In my dreams, in my hopes, in my mind they remind me of you

Should've left when I could, can't get out, I don't know what to do  
You can dig my grave, 'cause I can't be saved  
Like a grain of sand that's in a tidal wave  
In a broken place, no I can't be traced  
With your hand on my feelings and better ways  
Can't you see that I'm falling (falling, falling for)  
Can't you see that I'm falling, falling for you  
Show me where your heart is (oh, oh)  
Can't you see that I'm falling, falling for you (ooh)  
Can't you see that I'm on this, and I want this  
Can't believe that I'm falling, like this for you  
Can't you see that I'm falling  
I'm falling, falling for you  
I'm falling for you, ooh, ooh, ooh (falling, falling)  
I'm falling for you, ooh, ooh, ooh (falling, falling)
