

# Me Myself and i (7th Heaven Club Mix)

Darren Hayes

I'm kinda reeling  
A deja-vu feeling  
We've been together  
In another lifeGot me extending  
That network's ending  
The future echoes  
With your memoryNow darling, I don't know what the future will bring  
But I am willing to sing 'til I drop  
Now baby, I don't know how it happened to be  
But when we met it was like future shockTell me what to do, me myself and I  
It's gonna take a time machine  
To get it right  
And it's so cruel, I wanna take you home  
I'm gonna speed those hands of time right up  
So that I don't leave here all alone. Woo hoo!The death of the romance  
Thought there was no chance  
Then you appeared right in front of me  
I got to thinking  
Loneliness sinking  
I felt the cloudiness come over meNow darling, I don't know what the future will hold  
But I'm not willing to do as I'm told  
Now baby, I don't care how it happened to be  
But I know that my future's right in front of meTell me what to do, me myself and I  
It's gonna take a time machine  
To get it right  
And it's so cruel, I wanna take you home  
I'm gonna speed those sands of time right up  
So that I don't leave here all alone. Woo hoo!Did you ever get the feeling that the universe is leaning?  
It's accelerating, it will never stop  
Did you ever wonder if the number one divide by zero  
Is infinity and if that's the case then what?  
If imaginary numbers are abstractions of the real thing  
Then could someone make the clock of time stop?  
If we were always meant to be together like forever  
Than it must have been a future shockI don't know what the future will bring  
But I am willing to sing 'til I drop...What to do, me myself and I  
It's gonna take a time machine  
To get it right  
And it's so cruel, I wanna take you home

I'm gonna speed those sands of time  
Right up so that I don't leave here all aloneI don't know what the future will bring  
But I am willing to sing 'til I drop (Gonna speed those sands of time right up)  
Oh darling, I don't know how it happened to be  
But when we met it was like future shockWhat to do, me myself and I  
It's gonna take a time machine  
To get it right  
And it's so cruel, I wanna take you home  
I'm gonna speed those sands of time  
Right up so that I don't leave here all alone
