

Perfect

Nobodys

Blonde hair and brown eyes.

She really turns me on.

First time that i saw her, she was fucking ron.

I don't know what she does but she does it to me, but taylor wayne's the only girl that i will ever need. I really think i love her.

I'm probably insane, but i often wonder...

Why can't all girls be like taylor wayne? Nice lips and big tits.

She's perfect in every way.

Girls like her make me glad that i'm not gay.

I don't know where she's from and i don't really care.

Cause what she did was really cool.

She shaved off all her pubic hair. When it comes to women, there's a lot i can't explain.

I only have one question...

Why can't all girls be like taylor wayne?

Hey hey hey hey
