

Fantastic Day

Haircut 100

Well theres a great amount of strain
About getting on that train
Every day and every nightThe only thing that makes it good
Is seeing my favourite sight
Prance and flutter stride down that green escalator, yeahWhen Im getting off my train
And my love is on my brain
Every day and every nightThe only thing that makes it right
Is seeing my favorite sight
Crying in the night with the summer in her eyes tonightFantastic day today
Fantastic dayWell I can find a funny feeling
Funny as a smile
When your mouth is all dry
Why?Fantastic day today
Fantastic day
Well its a fantastic day today
Well its a fantastic dayI know Ive lost myself again
True love has past me by
I tried to shave myself
Be a happier guy night and dayI can see it in your eyes
Now the summer never smiles
On a happy honey dayAm I being in the way?
When Im so in love with you
I cant sit down and I cry in pain
With night and dayFantastic day today
Fantastic day
Well its a fantastic day today
Well its a fantastic dayWell its a fantastic day
Well its a fantastic day
