Go Fever

A Telemetry

overlooked it - undertook it
we must plow ahead
sacrificed to death we're led

building hopes so high
the only thing left is down
we can't - take another
another disgrace

go fever
is the attitude they practice
go fever
no matter who's in the way

site unseen - kind of unknown
another soul
is swept into the smoke

killing a need to hear
the only thing is beware
we must - make for something
something to show

go fever
is the attitude they practice
go fever
no matter who's in the way

so underrated
the need to hold
to alter one's set flow

most devastation
to break a tie
that can harness will to fly

go fever
is the attitude they practice
go fever
no matter who's in the way
