

# Go Fever

## A Telemetry

overlooked it - undertook it  
we must plow ahead  
sacrificed to death we're led

building hopes so high  
the only thing left is down  
we can't - take another  
another disgrace

go fever  
is the attitude they practice  
go fever  
no matter who's in the way

site unseen - kind of unknown  
another soul  
is swept into the smoke

killing a need to hear  
the only thing is beware  
we must - make for something  
something to show

go fever  
is the attitude they practice  
go fever  
no matter who's in the way

so underrated  
the need to hold  
to alter one's set flow

most devastation  
to break a tie  
that can harness will to fly

go fever  
is the attitude they practice  
go fever  
no matter who's in the way
