

Love Like (produced by StratosFear)

A Problem Like Maria

Walk, walk with me.
Shouldn't I go where you go?
Talk, talk with me.
Shouldn't I know what you know?

Took the time and I made you mine;
then I find that you crossed the line.
Why did you do what you did?

Years invested in love like the western wind;
why did you do what you did?
Years invested in love like the western wind;
why did you, why did you?

Hold me, hold me close.
Maybe I won't see the lies you
Sold me. Sold me those;
maybe I don't need to hear why youâ€™

Took the time and I made you mine;
then I find that you crossed the line.
Why did you do what you did?

Give me a sign, give me peace of mind.
Fill the crime in the grand design
of things that didn't turn out like we wanted.

I was kind, but you kept me blind.
Left me behind, now you say you're fine.
Why did you do what you did?
