

# Radiate (Shikari Sound System Remix)

## Enter Shikari

To take away our expression  
Is to impoverish our existence Oi!  
Yeah, kick it.  
Yeah. It's insatiable;  
What we're waiting for So to keep us from falling apart  
We'll write songs in the dark  
And to keep us from fading away  
We'll write for a better day So to keep us from falling apart  
We'll write songs in the dark  
And to keep us from fading away  
We'll write... It will flourish, it will thrive  
It will nourish;  
A spring cleaning of the mind  
It will flourish, it will thrive To take away our expression  
Is to impoverish our existence They silence and censor  
Our right to create  
In cells we choke,  
Without what is innate So to keep us from falling apart  
We'll write songs in the dark  
And to stop us from fading away  
We'll write for a better day This vomiting of anguish and eruption of the soul  
To radiate energy to comfort and console  
To scatter our thoughts, to splatter our spirit  
A blizzard of fire with all we transmit So to keep us from falling apart  
We'll write songs in the dark  
And to stop us from fading away  
We'll write for a better day So to keep us from falling apart  
We'll write songs in the dark  
And to stop us from fading away  
We'll write for a better... So to keep us from falling apart  
We'll write songs in the dark  
And to keep us from fading away  
We'll write for a better day So to keep us from falling apart  
We'll write songs in the dark  
And to keep us from fading away  
We'll write It's insatiable  
What we're waiting for It's insatiable  
What we're waiting for It's insatiable  
What we're waiting for It's insatiable

What we're waiting for It will flourish, it will thrive  
It will nourish;  
A spring cleaning of the mind  
It will flourish, it will thrive  
Yeah! It's insatiable;  
What we're waiting for  
(woah-oh) It's insatiable;  
What we're waiting for  
(woah-oh) So to keep us from falling apart  
We'll write songs in the dark  
And to keep us from fading away  
We'll write for a better day So to keep us from falling apart  
We'll write songs in the dark  
And to stop us from fading away  
We'll write for a better day
