

Jacksonville Kid

Lynyrd Skynyrd

This old town ain't been the same
Since this old boys been gone
Lord I still got some good friends
But I feel so all alone
All I hear is disco
See pretty boys with high heels on Well, some people sure hate me
And police dog me round
Well, the only place I'm welcome
Is on the west side of town
Well, I'm on the wanted posters
I can't show my face in town, alright Play this one for south side Jacksonville, I love you
But you don't want me around
Jacksonville, you raised me
And this is where I got my sound
Although I'm your outlaw
I still love my hometown, all around Ahh, this is for the west side boys This old town ain't been the same
Since your native sons been gone
Lord, I still got some old friends
But I am so all alone
All I hear is disco
See pretty boys with high heels on Well, you can keep your disco
Pretty boys with high heels on
