Untitled

Rose Cora Perry

I cannot think
I cannot speak
I try so hard to breathe
My mind is thinking crazy thoughts
It feels like youâ€™re a disease

You affect me to the core
I wish youâ€™d see me for more
I cannot do this, itâ€™s killing me

Chorus: I cannot sing
It comes out all wrong
My voice is so off-key
I cannot play
My guitar strums along
It is all so wrong to me

I cannot read
every word reminds me of you
I cannot hear music
every song says something about you too
What did I do?
Was it something I didnâ€™t do?
Are you listening?
Can you hear me?
Iâ€™m dying, dying, dying
