Lost Sheep

The Congos

As I try to cross the foreign land
By the rivers of the sinking sand
On my mission Jah works his plan
InI brethrens got work to be done

Searching for the last sheep
Not even sleep they sleep no
Searching for the last sheep
only weep they weep yeah

Son of men obtain or Not
Lets come together in one chord
We should all sing the same song, hear me now
We should all talk the same talk, hear me now
We should all walk the same walk, hear me now

you better remember, where youre coming from
or where you gonna go, now, hear me now lord
you better remember time to leave from babylon
its time to go back home, yeah

for the fire fire fire when theyre burning
and the ata ata lava will be flowing
and they give give give and they raging
and the ata ata fire burn a burning now

Babylon get Caught inna rat trap ohh yeah
Im Tellin' thats lion fox..? ye
Acting like a clown playing fools to catch the wise
You better be careful of em

for the fire fire fire when theyre burning
and the ata ata lava will be flowing
and they give give give and they raging
and the ata ata fire fire a burning

As I try to cross the foreign land
By the rivers of the sinking sand
On my mission Jah works his plan

InI brethrens got work to be done

Searching for the last sheep
Not even sleep they sleep hmmm
Searching for the last sheep
Only weep they weep yeah

son of men obtain or not
Lets come together in one chord
we should all sing the same song, hear me now
we should all talk the same talk, Im teeling you now
we should all walk the same walk, you better knownow

you better remember, where youre coming from
or where you gonna go, now, hear me now lord
you better remember time to leave from babylon
its time to go back home, yeah

for the fire fire fire when theyre burning
and the ata ata lava will be flowing
and they give give give and they raging
and the ata ata fire burn a burning
