Touching My Body

Danity Kane

Would you like that?
Would you like that?
I wanna know, do you like that?
If you like that
I need to know, did you like that?
I think you like that
I wanna know, do you like that?
If you like that, ooh, like that?
Starin' at me all night
While I'm out on the floor
It was clear what you wanted
So you pushed up on it
I was grindin' with the DJ
With my hands on the floor
I guess you couldn't take it
You got tired of waiting
So you walked over to me
Breathin' in my ear talking 'bout what could be
Saying you can do this and that
Then you start workin' me like a champ and I'm like
Ohh, you're touchin' my body
Ohh, you must want me to get started
Boy, I can't take it, it's so crazy
How you're makin' me feel
Ohh, you're touchin' my body
Ohh, you must want me to get started
Boy, I can't take it, it's so crazy
How you're makin' me feel
If I put you on would you like that?
Keep it nice and warm, do you like that?
We do it on the floor, do you like that?
I wanna give it some more, I know you like that
Now you got me sweatin'
Dancin' out on my clothes
I was headed for the door
But you made it so I had to know
Just what you was workin' with
Put it out there so I'd come get it
Now I'm the one who can't handle it

The way you workin' me out on the floor
So you walked over to me
Breathin' in my ear talking 'bout what could be
Saying you can do this and that
Then you start workin' me like a champ and I'm like
Ohh, you're touchin' my body

Ohh, you must want me to get started
Boy, I can't take it, it's so crazy
How you're makin' me feel
Ohh, you're touchin' my body
Ohh, you must want me to get started
Boy, I can't take it, it's so crazy
How you're makin' me feel
If I put you on, would you like that?
Keep it nice and warm, do you like that?
We do it on the floor, do you like that?
I wanna give you some more, I know you like that
When you're touchin' me like that
Step back and catch my breath
This way I've never felt
You do it feels so well, well
Ohh, you're touchin' my body
Ohh, you must want me to get started
Boy, I can't take it, it's so crazy
How you're makin' me feel
Ohh, you're touchin' my body
Ohh, you must want me to get started
Boy, I can't take it, it's so crazy
How you're makin' me feel
If I put you on, would you like that?
Keep it nice and warm, do you like that?
We do it on the floor, do you like that?
I wanna give you some more, I know you like that
Ohh, you're touchin' my body
Ohh, you must want me to get started
Boy, I can't take it, it's so crazy
How you're makin' me feel
Ohh, you're touchin' my body
Ohh, you must want me to get started
Boy, I can't take it, it's so crazy
How you're makin' me feel
Would you like that?
Would you like that?
I wanna know, do you like that?

If you like that
I need to know, did you like that?
I think you like that
I wanna know, do you like that?
If you like that
I know you like that
