

Come Along

Marlon Roudette

Early morning fly out and he flow
People rush on me, Im moving slow
Stories crossing, blurring thousand yall stay
Good to go now, then I catch you and gees and I falling
Falling all the way, now Im walking
No idea what Im gonna say to you
I just go now
Fly throw the ocean into deep
Im going under, go there with me
You ever wander? Or think this is lead
We gonna fly, we gonna fly
So come along, come along, come along
Come along, come along, come along
Right now its just the right time
They throwing us this life line
So come along, come along, come along
Come along, come along, come along
Right now its just the right time
They throwing us this life line
We gonna go, gonna fallow the line
We gonna go with the colors us bright
We gonna fly, we gonna fly
We gonna go, gonna fallow the line
Shes like crushing down and its
Since his operate
Suddenly theres no way to go to
Face to face now
I just hope you can hear my heart beat
I say come with me, I know what you need
Imma get a ticket right now to you
Good to go now
So come along, come along, come along
Come along, come along, come along
Right now its just the right time
They throwing us this life line
So come along, come along, come along
Come along, come along, come along
Right now its just the right time
They throwing us this life line

Right to the ocean, into the deep
Go there with me, you ever wander if faith is a league
We gonna fly, we gonna fly
We gonna go, gonna fallow the line
We gonna go with the colors up bright
We gonna fly, we gonna fly
So come along, come along, come along
Come along, come along, come along
Right now its just the right time
They throwing us this life line
So come along, come along, come along
Come along, come along, come along
Right now its just the right time
They throwing us this life line
We gonna go, gonna fallow the line
We gonna go with the colors up bright
We gonna fly, we gonna fly
