Locked In

Complete Control

If my words were suited to kill
Would their uniforms shock world
And its a long line
This can't be real(We are the ones,we are the ones)
An ice age locked in steelThese words are all thats left to say
So fuck the world
Until the end of my days
Would these troubles end
If I just got some sleep
So kill yourself,you're killing meIf my words could stand some ground
We go against anyone,and if we
Fight back
We don't care(We are the ones, we are the ones)
We'll attack when their unawareThese words are all thats left to say
So fuck the world
Until the end of my days
Would these troubles end
If I just got some sleep
So kill yourself,you're killing meThese words are all thats left to say
So fuck the world
Until the end of my days
Would these troubles end
If I just got some sleep
So kill yourself,you're killing meWe're locked in...today
