Stephen Speaks

Written by Rockwell RyanWhen I first met you That is when I knew This would be a long road homeWhen I crawled into your head That is when I said With you I want to grow oldCause you're everything I want Baby, you're everything I need inside of me And you're everything I love And I just want to be with youWhen I looked into your eyes It stopped my heart inside And I wanted you to be mine When you move me with your smile I would crawl a mile Just to see it one more timeCause you're everything I want Baby, you're everything I need inside of me And you're everything I love And I just want to be with you It's true I fell in love with you I know I will never be aloneI just want to find A way to make you mine Oh now, one more timeCause you're everything I want

Baby, you're everything I need inside of me
And you're everything I love
And I just want to be with you
It's true
I fell in love with you
I know
I will never be alone
