

# It Will End In Disaster

## White Sea

It kicks like a horse, this  
I never get my fill  
Nothing will ever be simple again  
Like a devil horse I  
Rode into your bed  
Just like a satellite on the edge You were my edge  
Now I know it will never be simple again  
You were the edge  
And maybe some day  
You will be loved and it will end  
In disaster And some day you  
You will be loved again  
And you will see  
It will always end Well some day you  
You will be loved again  
And you will see  
It will really end
