

# Ecstasy

Dolores O'Riordan

I can feel a pleasure, that's the pain  
When I die, I died in vain  
I can hear sweet temptations come  
Come with me and we will fall Ecstasy, misunderstood  
Will you dance with me as if I should?  
And in the morning the sun will shine  
Still I can't shake her, get out of my mind  
Mind, mind, mind, mind I can feel it rushing through my veins  
After they withdraw the pain  
This must be the essence of it all  
Stay with me and we will fall Ecstasy, misunderstood  
Will you dance with me as if I should?  
And in the morning the sun will shine  
Still I can't shake her, get out of my mind  
Mind, mind, mind, mind Look, you made me do this to myself  
Look, you made me do this to myself  
Look, you made me do this to myself  
Look, you made me do this to myself Ecstasy, misunderstood  
Will you dance with me as if I should?  
And in the morning the sun will shine  
Still I can't shake her, get out of my mind  
Mind, mind, mind, mind
