

# Love Love Love (Album Version)

Tristan Prettyman

It's 4 am  
The paperboy's at it again  
But I can't get no sleep  
I mean what's the point?  
If I can't even dream up a dream  
That's worth the keep

And so there's no need in even going  
Cause I'm better off never knowing  
You know the media's getting  
Really good at lying  
And this time around  
I'm not buying

'Cause this life is a beautiful one  
And though I seen it comin undone  
I know most definitely  
That it's gonna be you  
It's gonna be me  
So baby keep your head up  
Keep it on the up and up  
'Cause you got all my love  
Love love love

'Cause we're all just lovers and takers  
Breaking hearts to make the papers  
She wants love I told her to stop trying  
Cause the reasons for her tears  
Aren't worth crying

And this life is a beautiful one  
And though I seen it comin undone  
Well I know most definitely  
That it's gonna be you  
It's gonna be me  
So baby keep your head up  
Keep it on the up and up  
'Cause you got all my  
Love love love

Loving all around me  
I think that love has found me  
Loving all the time

And when the summer's here  
The waves are crashing  
No time for thinking  
Don't even ask me  
I'm gonna let it all roll right past me  
'Cause when I'm here  
I'm always happy

And this life is a beautiful one  
And though I seen it comin undone  
Well I know most definitely  
It always works out the way it's meant to be  
So baby keep your head up  
Keep it on the up and up  
And know that you got all my  
Love love love
