

Dangerous Mindz

Wu-tang Clan

I got stress on my brain that causes chest pains
Inside the best frames, ghetto blood clots is scored by slug shots
And drug spots, well, if you're too poor to move out
Or get a new house, it's like livin' in a war, walkin' through shootouts
And you doubt God exists, when hard fists
Be poundin' on your head like jackhammers
You're trapped in the black drama, you hear the laughter
Seconds after that you fade out, you're played out, you're laid out
Your heart nearly gave out, you're lucky that
you made out
With just a few scars when the beating ends
The streets let ya breathe again
But evil men, will soon be on the receiving end
Of Universal Law, I'm callin' on the meek and the poor
To fight back and never forfeit the day you have to go to war
With forces that are armed upon the seven continental borders
A mental fortress is essentials to absorb this
My sword hits the human orb until it orbits
In the art of war kids see Grym Reap be morbid
Since pieces of the lost civilization in the past
Had my photographs etched inside of pyramids
To laugh at this revelation, without 365 days of concentration
And twenty-four hour meditation, would be foolishly pagan
I'm ancient as 'Amen', see I stay Grym
Throwin' fools in in a pit full of pit bulls to be shaken
Or strapped to the crossroads of Hell and inner sin
Which trap the sinners in to sell such a Sing-Sing
I bring Grym tidings, tidal your wave all not exciting
Stop riding the dick, start writin' your own shit
Cause I stick figures, they think they fat and can't rap wind blast
I make 'em Slim Fast, lookin' like stick figures
I'm all that, I bag chips at concerts and shows
Get more panties than hoes that boost Victoria Secret clothes
Foes is tagged like ex-foes toes at the coroner's
Kids with cold feet rise and fall like the barometer
Grym will mentally chop your career
See, shit is locked down here, like penitentiary blocks in tears
Escape outta your ducts, every time you hear my
name
You better duck fate or catch a fuckin' face full of duct tape
You get smacked like a trick that sniffed off her money
Then smoked like Rzarector with the blunts dipped in honey
Rotate your head like a gyro, my hair grows in
knotty spirals
Feet resembles Christ's description from the Bible
Water-walker, immune to all physical torture
Pull out fast in a Porsche upon a double-crosser
My penis rise up in the morning like a Phoenix
And blast iron cells into a low blooded 'nemic
The imperial material's venereal

MC's get murdered in serial, you can't fuck with the material
 Unorthodox paradox, my shit is seen wide-screen
 Magnavox
 Grabs thought like Doctor Octopus
 'Cause war like the grandson of Kush
 I'm hangin' devil's heads on a evergreen bush
 Sugar-frosted sorceresses, bitches get exhausted
 Pussy lips be drippin', like leaky faucets
 Undercover C-Cyphers sprayed up like windshield wipers
 While I'm guzzlin' Piper's, changin' my son's shitty-ass diapers
 Dime piece trapped in sync like many time
 piece
 You get stampeded by the wildabeast
 A rap dast' plus tracks black like Chow Yun Fat
 Oppositional forces get their eardrums flat
 Common denominator, I swing the mic saber like Vader
 He was fooled by the interpretation made from a traitor
 MC's get their wigs blown, trounced off my fistbone
 Choked from my death, every time they break a wishbone
 Eventually, I knew the whole world would mention me
 Potentially, I have the key to make G's
 MC's breeze on my tracks, I rock the root with the trees
 Killa bees spread rapid like diseases
 See it's, like the second comin' of Jesus, of Nazareth
 Be fabulous, raise the dead crowd up like Lazarus
 Hazardous vocabulary attacks be beautiful
 Acoustical notes we provoke, it comes out musically dope
 Niggaz realize they just can't cope
 They're here, bustin' out the head resembles fire and smoke
 Loc
 I blast watts in circuits like General Monk
 Monk was Turkish
 My science is divided deep into your central nervous
 Pervert area codes peep this murder
 I'm boxed-in, suckin' hologram tits, inhalin' oxygen
 Parallel world of crab niggas and sea shells mix
 I pierce my dick and sword right through you pelvis
 I'm hell stricken bomb, wrapped in trees of palm
 Physical existence is descendants of Allah
 I travel at high rates, weaker men are primates
 That either migrate or get burnt to the stake
 I feed off lyrical light beams of amphetamine
 My terminology is panatomic like lobotomy
 Crazy el loco, gas niggaz like Sunoco
 Flush 'em like Presto, Blast in your chest bone
 I raise from the shore, like Sodom and Gomorrah
 With traction, flashin' a 4-wheel drive Ford Explorer
 While mucus lies within the center of the Rubik's
 The roots of the wine induced the enzymes inside your nucleus
 Turmoil boilin' appointed, niggaz rubbin' off my
 style like a ointment
 Lost in the Sahara, From trial and error
 Confused with 3 meals for Sister Sara
 Bearer, digestin' minerals in abundance
 Because the dead is not known to return from the dungeons
