Never Quite Got Over It

Sitting in this smokey place
Not a smile on a single face
From an alcoholic haze I rise
Feeling fury that so often blinds
An empty bottle, I draw back and throw
Now Iâ€™m smiling as the glass explodes
Why the hell is it eluding me
The inner peace, the serenity
I scream at the night, I scream your name
If fire is life, time is rain
I never quite got over it (2x)
No, oh no
I held your hand and yes I kissed those lips
Now they only know anotherâ€™s kiss
Turn away those ebony eyes
Do you wannaâ€™ see me paralyzed?
I swear to you before all of man
Iâ€™ll fight and die in your defense
Twisted, shattered and battle scarred
The smoke has cleared, I lost this war
An angel did come one night in May
As quick as she came she went way
I never quite got over it (2x)
