

Love Me

Lunic

I'm not perfect
I spend my time alone
I get bored fast
I don't answer my phone
I wake up too late
I tell little white lies
God knows I drink too much
I have secrets I still hide Can you love me?
Love me
If not forever than just for today
I promise to try and get better
Cause I know now love is all that matters I'm unreliable
I don't have a backup plan
I'll forget your birthday present
I'll expect you to understand
I'm impatient
I act tougher than I am
I wonder if all the people I love
Even know I love them Can you love me?
Love me
If not forever than just for today
I promise to try and get better
Cause I know now love is all that matters I want to be good
I want lots of friends, too
I want to laugh more and cry less
I want to be like you
I want to love myself
I want to do what I say I'll do
I want to be less antisocial
I want to be more like you
