Bloodline

Recoil

Come on
I need easing
Sulk from the crowd
'Cause I'm ready to get stoned
So long so long
So long so longFeed me
Come on, show me
Come on, need me
Come on, show me the way
Come on, need me that way
So longYou just never, ever get what you want
You just never, ever get what you need
You just never, ever get what you want
You just never, ever get what you needCome on, kid, thrill me
Come on, come on, you're my boy
Come on, show me the way
Come on, show me the feeling
So longYou just never, ever get what you want
You just never, ever get what you need
You just never, ever get what you want
You just never, ever get what you needYou just never, ever get what you want
You just never, ever get what you need
You just never, ever get what you want
You just never, ever get what you needCome on, get what you want
Come on, get what you need
Come on, get what you want
Come on, get what you need
Come on, get what you want
