You Find It Everywhere

Swervedriver

You find it here
You find it everywhere
It's always there
I'm drivin' everywhereYou find it everywhere
You find it everywhere
You find it everywhereBeyond the glare
There's burnin' everywhere
We stop and stare
I'm falling every stairYou find it everywhere
You find it everywhere
You find it everywhereSo take me there
I really just don't care
Down at the fair
We'll find them everywhereYou find it everywhere
You find it everywhere
You find it everywhereThe clothes you wear
You find them everywhere
The profit's there
They're buyin' every shareYou find it everywhere
You find it everywhere
You find it everywhereYou find it here
You find it everywhere
It's always there
I'm striving every stairYou find it everywhere
You find it everywhere
You find it everywhereYou find it everywhere
You find it everywhere
You find it everywhere
