Busted

Vitamin C

Busted, busted
Some things you feel
Before something's revealed
Sometimes you know
Oh, sometimes it shows
You were with her said you weren't and
You're not not not
Gonna lie about the feelings that
You got got got
You can tell me that you love me but
You're not not not
Gonna get away with lying 'cause
You're hot hot hot
I believed you when you talked
About love love love
That I'm the only one
That you were thinking of
But I'm really not the
Type to rise above-bove-bove
A little indiscretion
With a scrub
Busted, it's you I trusted
I guess I must have been a fool
Busted, it's you I trusted
I guess I must have been a fool
Busted, busted, please give the world
Some things you feel
Before something's revealed
It's not gonna happen
You can try try try
I'll never take you back
I'd rather die die die
I know you really did it
'Cause you lie lie lie
And now we're not N'Sync
So it's bye bye bye
So you tell me that
You want me and I'm hot, aha
That I'm the only

Good thing that you got, aha
Too bad you were
Cheating and got caught, aha
You really don't
Deserve another shot, aha
Busted, it's you I trusted
I guess I must have been a fool
Busted, it's you I trusted
I guess I must have been a fool
If it was one time, but so many
Don't try and lie to me
I know it's the truth
I know what you're upto
Busted, it's you I trusted
I guess I must have been a fool
Busted, it's you I trusted
I guess I must have been a fool
You were with her said you weren't
Had your fun fun fun
Now I guess you're gonna pay for all the
Things you've done
Don't even try to tell me
She's the only one
If you see me coming near
You better run run run
So now I know the truth
I wonder why why why
But I'm not the type to
Sit around and cry cry cry
Now you turned your back
On the one you trusted
Too bad baby 'cause you're busted
Too bad baby 'cause you're busted
Just give the world
Busted, it's you I trusted
I guess I must have been a fool
Busted, it's you I trusted
I guess I must have been a fool
Busted, it's you I trusted
I guess I must have been a fool
Busted, it's you I trusted
I guess I must have been a fool
