## Cream

Comin' to me in the mornin', leavin' me at night  
Comin' to me in the mornin', leavin' me alone  
You've got that rainbow feel, but the rainbow has a beard  
Runnin' to me a cryin', when he throws you out  
Runnin' to me a cryin', on your own again  
You've got that pure feel, such good responses  
But the picture has a mustache  
You comin' to me with that soulful look on your face

Comin', lookin' like you've never ever done one wrong thing  
You're comin' to me with that soulful look on your face  
You're comin', lookin' like you've never ever done one wrong thing  
So many fantastic colors, I feel in a wonderland  
Many fantastic colors makes me feel so good  
You've got that pure feel, such good responses  
Got that rainbow feel but the rainbow has a beard
