

# Just Another Victim (feat. Helmet)

## House Of Pain

Victimized, but you're in bed  
Stumble out and run dead  
If it ever paid to self start  
Environment, make you smartJust another victim  
Just another victim  
Just another victim  
Just another victimKid, I heard it once, but not before  
Begging off and livin' bored  
My hands are tied, webbed feet again  
Fell in behind and claim us deadJust another victim  
Just another victim  
Just another victimCast this inspite of truth  
Give it up, I'll lie to you  
Blame and flame this, turned stat  
Pointed finger, you fall apartJust another victim  
Just another victim  
Just another victim  
Just another victimYou played yourself, now you're pointin' fingers  
How I've robbed and raped ya, bruised and scraped ya  
But those are just lies 'cause in your eyes  
You've been victimized it's how you size it upYou disguise it up and try to make it look real  
To cover up the low self esteem you feel  
Introspection and after thought  
Swimmin' in guilt's your favorite sportBut now you're caught up in the undertow  
You never knew a man could sink so low  
But now you know 'cause you're John Doe  
In a black bag a tag on your toe  
I built the house I felt the pain  
You're victimized but got no one to blameJust another victim  
You're just another victim, kid  
Just another victim  
You're just another victim, kidHoly diver, I'm a survivor  
Feeling like Deniro in taxi driver  
With Jodi foster and Harvy Keitel  
Looks like I'm walkin' through a livin' hellSo spark that owl and I'll get lifted  
Feelin' the effects of what my spliff did  
'Cause I'm gifted I read sun tzu  
I bought a gun too so you'll never come too  
The weight of the world ridin' on my shoulders

'Cause I'm a soldier, I thought I told ya You're just another victim  
You're just another victim, kid  
You're just another victim  
You're just another victim, kid You're just another victim  
You're just another victim, kid  
You're just another victim  
You're just another victim, kid Just another victim  
Just another victim  
Just another victim  
Just another victim kid
