

# Heart Throb

## Be Your Own Pet

I can see youre looking  
and i really really want you to  
and i dont know if he knows  
that im looking straight at you  
every time that i see  
you looking right at me  
i forget that i belong to somebodyI can see youre looking  
and i really really want you to  
and i dont know if he knows  
that im looking straight at you  
every time that i see  
you looking right at me  
i forget that i belong to somebodywoo  
you make me think  
way too hard woo  
you make my stomach hurt way too muchthe sun is getting brighter  
but im still cold  
said to tell me that  
you feel too old  
the sun is getting brighter  
but im still cold  
dont just start to tell me how you feelI can see youre looking  
and i really really want you to  
i would do anything that you wanted me to do  
but i know im not allowed  
with everyone around  
ive got to hide these feelings so they cant be foundI can see youre looking  
and i really really want you to  
i would do anything that you wanted me to do  
but i know im not allowed  
with everyone around  
ive got to hide these feelings so they cant be foundwoo  
you make me think  
way too hard woo  
you make my stomach hurt way too muchthe sun is getting brighter  
but im still cold  
said to tell me that  
you feel too old  
the sun is getting brighter

but im still cold  
dont just start to tell me how you feelMaybe im thinking way to much  
seeing things that just arent there  
and i guess its for the best  
cause ive got someone else who careswoo  
you make me think  
way too hard woo  
you make my stomach hurt way too much woo  
you make me think  
way too hard woo  
you make my stomach hurt way too muchthe sun is getting brighter  
but im still cold  
said to tell me that  
you feel too old  
the sun is getting brighter  
but im still cold  
dont just start to tell me how you feel
