

# Night People

Allen Toussaint

Night people hanging out, looking at each other  
Waiting for something to happen  
Night people hanging out, looking at each other  
Waiting for something to happen While the day world is sleeping  
Night people are creeping, hanging out, looking at each other  
When the day world stops moving  
Night people start grooving, hanging out, looking at each other When the day bees stop buzzing  
Night people start coming, hanging out  
Waiting for something to happen  
Night people hanging out, looking at each other  
Waiting for something to happen  
You dont get one thing without the other, we got to keep the world alive  
If everybody went to sleep at the same time, howd we keep the world alive?  
In a word, we got the night people  
Night people hanging out, looking at each other  
Waiting for something to happen Got to see who is with you  
Who is with me, who is with who  
Were hanging out looking at each other  
Got to see whatcha wearing, whatcha got  
Whatcha sharing, hanging out  
Waiting for something to happen As the day world goes by  
Night people doing fine, hanging out, looking at each other  
When the day world starts humping  
Night people start pumping, hanging out  
Waiting for something to happen  
Night people hanging out, looking at each other  
Waiting for something to happen  
Night people hanging out, looking at each other  
Waiting for something to happen Night people grooving, hanging out  
Night people grooving, night people grooving  
Night people grooving, night people grooving  
Night people grooving
