

# I'll Make You Dance

[Elliott Yamin](#)

I can't help but noticin' you're fine, as fine can be  
And when you're out there on the floor  
I wanna break my neck to see  
Trying to control myself but it's hard, as hard can be  
I'm gonna make my way to you eventually 'cause, baby  
We can let the music play on  
While we're waiting for a song you like  
We can take it to the dance floor  
Do whatever makes you feel alright  
I'll make you dance, dance all night  
If you want me to just give me that chance  
To make it right, we can find a grove  
I'll make you dance, dance all night  
If you think I'm watching you  
You're right, as right can be  
The way you move that thing around  
It's a doggone sight to see  
Can't stand to see you walk away  
Sure love to watch you leave  
Gonna have my way with you definitely  
'Cause, baby, we can let the music play on

While we're waiting for a song you like  
We can take it to the dance floor  
Do whatever makes you feel alright  
'Cause I'll make you dance, dance all night  
If you want me to just give me that chance  
To make it right, we can find a grove  
I'll make you dance, dance all night  
If you want me to just give me that chance  
To make it right, we can find a grove  
Baby, if you wanna we can have a good time  
Baby, if you want it we can do it all night  
Baby, if you wanna we can have a good time  
Baby, if you want it we can do it  
'Cause I'll make you dance, dance all night  
If you want me to just give me that chance  
To make it right, we can find a grove  
I'll make you dance, dance all night

If you want me to just give me that chance  
To make it right, we can find a grove  
I'll make you dance, dance all night
