# Stitches (feat. Jemimah Read)

## The Vanguard Project

In the night I feel your arms around me
Promise to be honest, are you there??
In my deep surrender feeling empty...
You're the main attraction, do you care?

If my friends are right then I'm a lie...
If it's you, the one I can't deny
In the night I feel you warm beside me...
Let's pretend you never said goodbye.

((Hook))
You tore my love and let me go..
And the stitches of my heart don't heal anymore.
And you tore my heart baby and you let me go..
And the stitches of my heart don't heal anymore.

Reach the bottom, now I've hit the bottle...
Prisoner with life I'm paralyzed
Talk to me, release me to the honor...
You're the one my body can't deny

(Repeat hook 4x)

And then you drive me crazy, and then you threw my world away (4x)
