

First Love (al Etto's Mix)

First Love

Once in a while
You are in my mind
I think about the days that we had
And i dream that these would all come back to me
If only you knew every moment in time
Nothing goes on in my heart
Just like your memories
How I want here to be with you
Once moreYou will always gonna be the one
And you should know
How I wish I could have never let you go
Come into my life again
Oh, don't say no
You will always gonna be the one in my life
So true, I believe i can never find
Somebody like you
my first loveOnce in awhile
Your are in my dreams
I can feel the your warm embrace
And I pray that it will all come back to me
If only you knew every moment in time
Nothing goes on in my heart
Just like your memories
And how I want here to be with you
Once more
yah yah yahYou will always be inside my heart
And you should know
How I wish I could have never let you go
Come into my life again
Please don't say no
Now and forever you are still the one
In my heart
So true, I believe I could never find
Somebody like you
My first love
oh oh
