

# Way Back Home

## The New Kingston Trio

Be still my child, we'll overcome  
The evil mind behind the bomb  
So lift your hearts, open your minds  
And leave no room for words unkind  
Be still my friends, we'll overcome  
The evil mind behind that bomb  
You don't waste your words, I've already grown  
I'm gonna find my way back home  
Don't waste your words, I've already grown  
I'm gonna find my way back home  
Be still my friends, we'll overcome  
The evil mind behind that bomb  
Don't waste your words, I've already grown  
I'm gonna find my way back home  
Don't waste your words, I've already grown  
I'm gonna find my way back home  
Don't waste your words, I've already grown  
I'm gonna find my way back home  
Don't waste your words, I've already grown  
I'm gonna find my way back home  
And I'm gonna find my way back home  
Way back home, way back home  
My way back home
