

# Sing It Out

## Guided By Voices

Came into town just to sing it out  
Let the children play  
Help them on their way  
Save them  
Took a turn with a temperature drop  
Now I wanna go  
Don't like driving in the snow  
And when you call him  
Will he be happy  
I don't think so  
Got a girl in trouble  
Get him out on the double  
Now when she close to be a good woman  
Will you care to follow  
Where next will you go?  
Though your ??? will know  
Sing it out
