

# 3 Chains O' Gold

## Prince

If I don't think about the fact that she left me  
If I don't see the pearls fall from the sky  
If I don't hear the accusations of blasphemy  
If I don't feel the tears in my eyes  
This is the best day of my life You say you'll call me and then you don't  
I want to kiss you and then I won't  
We both do nothing and call it love  
Is this love?, Is this love? This morning I wanted a cup of coffee  
But I didn't have any cream  
Last night I wanted some inspiration  
But I didn't have any dreams Coupled with the fact that you belong to another  
Whose name is self-righteousness  
So evil girl, if one of us has a date  
With the undertaker, which one will it be?  
You can cry forever, but you'll get no sympathy  
This is the best day of my life I've got 3 chains o' gold  
And they will shine forever  
They are the nucleus of my soul  
Melt down, no, they will never I've got 3 chains o' gold  
And they will shine forever  
They are the nucleus of my soul  
Melt down, no, they will never Give back the chains if you don't you will die  
Nothing should come between you and I 3 chains o' gold  
They will shine forever  
If one of us has to go  
You will go before me If one of us has to go  
You will go before me  
You will go before me, baby  
'Cause I show 'enough say you will 3 chains o' gold  
You will go before me  
You will go before me  
You will go before me  
You will go before me 3 chains o' gold  
They gonna shine  
Forever, forever, forever  
3 chains o' gold
