

# Celebrity Life

## The Friday Night Boys

Magazines and movie screens  
Still in her mind, she's seventeen  
Now her life has turned into make believe  
Her social status lingers  
She's slipping through my fingers  
And it's too late, I can't change her mind  
She tried celebrity life  
Drugs and bottles and super models  
She falls out, it's not so easy  
Alcohol drains her completely  
Just one thing that you'll never wanna miss  
She'll do anything to get famous  
And she lives a lie in photographs  
Just smiles to forget the past  
But on the inside she's still torn apart  
And she promises she's different  
But it just gets into her head  
And it's too late, I can't change her mind  
(Not this time)  
She tried celebrity life  
Drugs and bottles and super models  
She falls out, it's not so easy  
Alcohol drains her completely  
Just one thing that you'll never wanna miss  
She'll do anything to get famous  
Fast asleep and in her dreams  
She's faking it, just what she's feeling  
The lights are on, the clothes come off  
She's sitting tight, the party's over  
Fast asleep and in her dreams  
She's faking it, just what she's feeling  
She tried celebrity life  
Drugs and bottles and super models  
She falls out, it's not so easy  
She tried celebrity life  
Drugs and bottles and super models  
She falls out, it's not so easy  
Alcohol drains her completely  
Just one thing that you'll never wanna miss  
She'll do anything to get famous  
She tried celebrity life  
Drugs and bottles and super models  
She falls out, it's not so easy  
She'll do anything to get famous
