Camp Music Co.- ASCAPHello everybody and welcome.
HelloStand back you got to give the girls room to move.
Stand back you got to let'em enter on through.
I know you think she's acting crazy.
And she's playing crazy games for you
But she's crazy like a fox
And that fox got her eyes on youStand back you got to give the girl room to dance.
Stand back she's goona love ya, if you gonna have a chance
I know you think she's acting to try one
And she's playing crazy games with you
But she's crazy like a fox
And that fox got her eyes on you(Guitar Solo)Stand back you got to give the little lady room to breath.
Stand back I can see your trembling at your knees.
I know you think she's acting crazy.
And she's playing crazy games for you
But she's crazy like a fox
And that fox has got her eyes on you.
But she's crazy like a fox
And that fox has got her eyes on you.
I said she's crazy like a fox
And that fox has got her eyes on you
