In Lust

Poisonblack

It comes again... the state I love and hate
It comes again... I am lost yet I have faith
I'm so high on youThe nature of you is to keep on fulfilling the need
The nature of me is to drown with the next defeatTime after time you bleed your tears for me
Time after time... for meWhen fear of life keeps crawling in she wipes it all away
Day turns to night repeats the sin
I'm in lust so let love reign
