

# Love Don't Live Here Anymore

**Kris Kristofferson**

Perfect strangers sitting down face to face  
Like we've never met before  
Nothing's left between us but the space between us  
Love don't live here anymore Faded photographs, dusty dreams  
Lying scattered on the floor  
Nothing's here to bind us to the years behind us  
Love don't live here anymore Never sharin' nothin' we don't care  
I got nothin' close to nothin' you'd care to hear  
Nail the shutters down, pull the shades  
Hang a sign upon the door There's no use pretending, there's no happy ending  
Love don't live here anymore  
Love don't live here anymore  
Love don't live here anymore
