

Hush

Jellyfish

Go to sleep and hush little darling
It's time for bed, time to put out the light
Sweet dreams are awaiting behind your closed eyes
And a blanket of night where the bed bugs don't bite
Go to sleep and hush until morning
You've said all your prayers, time to make them come true
Don't worry, your daddy is here if you need him tonight
Ease your mind, rest your eyes and sleep tight, goodnight
