

# Bad Vibrations

## My Education

Can you tell a wish from a spell? A hug from a lie?  
They both make you feel so gone  
We warned you from harm again  
Your beating hearts againWe made love in June  
I heard it from you  
You were my best friend  
You used my nameHit hard with harm, she loves to off you then yawn  
Never disarm, you know she loves to be drawn  
You're leaching her friend  
I'm feeling down againWe made love with a few  
I took it from you  
You were my worst friend  
I felt that wayBraiding her hair, you can tell her from here  
Drink her last tear, yeah, you die for your dear  
Bad vibes around her  
She's eating our hearts againWe made love in June  
I heard it from you  
You were my best friend  
You used my nameInside, outside  
Inside, outside  
Inside, outside  
Inside, outsideInside, outside  
Inside, outside  
Inside, outside  
Inside, outsideInside, outside  
Inside, outside  
Inside, outside  
Inside, outside
