

# All The Voices

## INXS

Deep down in my heart  
There is a lot of words  
Tears fall down my face  
But I hear the many voices that cry in vain  
I want to tell you  
Don't give it up, no no  
Wanna tell you  
Don't give it up, give it up now  
Don't give it up, give it up now  
Hear the voices  
Wraps around you  
All the people  
Never doubt it  
Hear the voices  
Take a look at what's around you  
All the people  
We can change things, never doubt it  
We want a new start  
Is it just too much to ask?  
What does it take?  
'Cause I hear a million people singing the same  
I wanna tell you  
Don't give it up, no  
I wanna tell you  
Don't give it up  
Don't give it up, no  
Hear the voices  
Wraps around you  
All the people  
Never doubt it  
Hear the voices  
Take a look at what's around you  
All the people  
We can change it, we can change it  
Hear the voices all the people  
Hear the voices all the people
