

This Is Love

George Harrison

Vicious words drift away from their meanings
And the sun melts the chill from our lives
Helping us all to remember what we came here for This is love, this is la la la la love
This is love, this is la la la la love Little things that will change you forever
May appear from way out of the blue
Making fools of everybody who don't understand This is love, this is la la la la love
This is love, this is la la la la love This is love, this is love This is love, this is la la la la love Since our problems
have been our own creation
They also can be overcome
When we use the power provided free to everyone This is love, this is la la la la love
This is love, this is la la la la love This is love, this is la la la la love
This is love, this is la la la la love
This is love, this is la la la la love
