## This Is Love

## **George Harrison**

Vicious words drift away from their meanings
And the sun melts the chill from our lives
Helping us all to remember what we came here for This is love, this is la la la la love
This is love, this is la la la loveLittle things that will change you forever
May appear from way out of the blue

Making fools of everybody who don't understandThis is love, this is la la la la la love This is love, this is la la la loveThis is love, this is love, this is la la la la loveSince our problems

have been our own creation

They also can be overcome

When we use the power provided free to everyone This is love, this is la la la la love This is love, this is la la la la love This is love, this is la la la love

This is love, this is la la la la love This is love, this is la la la la love
