

Media Overkill

Scorpions

They're watchin' me, they're watchin' you
 Takin' all the world under control
 They make you laugh, they make you blue
 In the end they try to eat your soul
 Satellites transmit the latest thrill
 We can't escape the media overkill
 Satellites transmit the latest thrill
 We can't escape the media overkill
 A purple flash, the biggest crash
 Totally in tune around the world
 They take you high, they make you cry
 We are at the point of no return
 Satellites transmit the latest thrill
 We can't escape the media overkill
 Satellites transmit the latest thrill
 We can't escape the media overkill
 Over and over and over
 Over and over and over
 Satellites transmit the latest thrill
 We can't escape the media overkill
 Satellites transmit the latest thrill
 We can't escape the media overkill
 Satellites transmit the latest thrill
 We can't escape the media overkill
 Over and over and over
 Over and over and over
 Satellites transmit the latest thrill
 We can't escape the media overkill
 Satellites transmit the latest thrill
 We can't escape the media overkill
 Satellites transmit the latest thrill
 We can't escape the media overkill
 Satellites transmit the latest thrill
 We can't escape the media overkill
 Satellites transmit the latest thrill
